

Divy Jakhotiya

B.E. (Hons.) Computer Science | BITS Pilani, Goa Campus 2024-2028 (7.00 CGPA)

+91 6005137134 | divyjakhotiya@gmail.com | github.com/DiviJakhotiya

TECHNICAL PROFICIENCY

Languages: Python, JavaScript, C++, Golang, C, Java

Frameworks & Developer Tools: FastAPI, Postman, API Development, Docker, Kubernetes, Git

Cybersecurity & Forensics: Digital Forensics, Wireshark, Cryptography, Reverse Engineering, Burp Suite, Linux

Cloud & DevOps: Azure DevOps, Google Cloud Platform

EXPERIENCE

Intern

May 2026 – July 2026

Centre for Railway Information Systems (CRIS) | LoopBack 4, Node.js, PostgreSQL

New Delhi, India

- Designed a robust task tracking module featuring template-driven schedule setups and primary/backup coverage configurations to monitor lifecycles across verticals.
- Implemented an automated lazy-evaluation engine to generate health reports and instantly escalate missed compliance windows to Vertical Heads.

PROJECTS

Docker Instancer | FastAPI, Docker, SQLite

May 2026 – June 2026

- Architected an SQLite-backed platform provisioning isolated, ephemeral challenge environments for players on demand for secure CTF challenge hosting.
- Implemented real-time bidirectional WebSocket connections to stream server container build statuses and live countdown timers to player dashboards.
- Designed a custom system scheduling engine to automatically monitor container runtimes, enforce expiration limits, and clean up inactive or idle environments.

Codeforces Duel | Python, FastAPI, WebSockets, SQLite

March 2026 – Present

- Created a real-time 1v1 lockout-style competitive programming platform integrated with the official Codeforces API and backed by an SQLite data access layer.
- Leveraged WebSockets to synchronize live match states, rendering real-time problem scores, submission verdicts, and player timers dynamically.
- Engineered an automated matching system and global skill leaderboard calculated using a robust Glicko-2 rating system algorithm.

POSITIONS OF RESPONSIBILITY

Technical Head

Jan. 2026 – Present

BITSkrieg (BITS Goa Cybersecurity Club)

- Spearheaded technical operations to secure an elite **World Rank #1** on the global CTFtime leaderboards during the 2026 season.
- Co-organized BITSCTF 2026, managing and deploying high-availability cloud infrastructure to host **7000+** live players and **2500+** competitive teams.
- Participated in **100+** global CTFs, gaining expert skills across core domains including Digital Forensics, OSINT, and Binary Exploitation.

EXTRA-CURRICULAR ACTIVITIES & VOLUNTEERING

Media and Operations Volunteer

April 2026

Nullcon Goa (Cyber Security Conference)

- Managed on-ground logistics and media communications for **Asia's largest cybersecurity conference** as part of the official media team.
- Supported the hosting and execution of highly technical security workshops and high-profile networking sessions.

Student Mentor

Aug. 2025 – May 2026

Peer Mentorship Programme, BITS Goa

- Mentored first-year engineering students on academic transition strategies, curriculum navigation, career tracks, and core technical skills.
